

User Manual

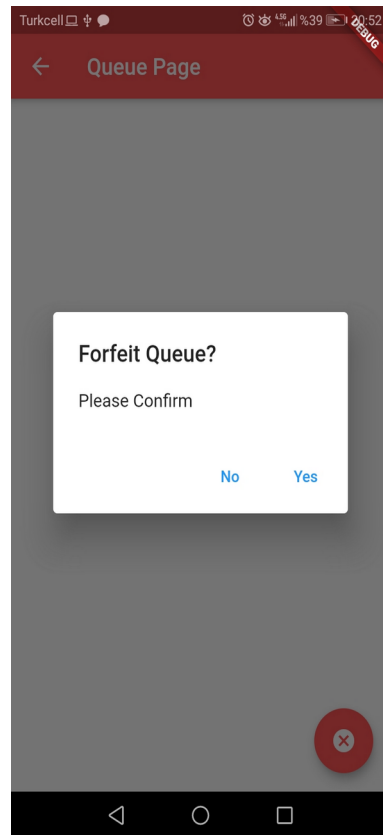

User first encounters with login page where user can enter their TCKN (Turkish Identification Number) and password to gain entry.

Then user encounters with Home page where user can see the how many desk and how occupant are they. This is where user taps on button in which is the bottom of the screen to scan the QR.

This is where user can see the info of the Queue ticket, in here user can give up the queue, in which will be sent back to Home page.

To scan the QR code, simply hold the smartphone to align the rectangle to QR code. Then user will enter the queue and be sent to the Queue Screen.
